		(e)	<p><u>Criteria for levy of Cargo Related Charges (CRC) at Concessional Coastal rate</u></p> <p>(i). 	(f)	The charges for coastal cargo/containers/vessels shall be denominated and collected in Indian Rupee.
	(viii)	In all cases where charges are levied in US Dollar terms, the exchange rate shall be reviewed once in every 30 days from the date of applicable exchange rate adopted initially in respect of storage charge for containers staying inside the Port for more than 30 days or in respect of vessel related charges for vessels staying in the Port for more than 30 days. 	(a)	The user shall pay penal interest on delayed payments under this Scale of Rates. Likewise, KoPT shall pay penal interest on delayed refunds.
	(b)	The rate of penal interest will be 15 % p.a. The penal interest rate will apply to both the KoPT and the port users equally.
	(c)	The delay in refunds will be counted beyond 20 days from the date of completion of services or on production of all the documents required from the users, whichever is later.
	(d)	The delay in payments by the users will be counted beyond 10 days after the date of raising the bills by KoPT. This provision shall, however, not apply to the cases where payment is to be made before availing the services / use of Port Trust's properties as stipulated in the Major Port Trust Act and / or where payment of charges in advance is prescribed as a condition in this Scale of Rates.
	(xiv)	Before classifying any cargo under "unspecified category" under the Wharfage schedule, the relevant Customs classification should be referred to find out whether the cargo could be classified under any of the specific categories mentioned in the wharfage schedule.
	(xv)	(a) <u>System of classification of vessel for levy of Vessel Related Charges (VRC)</u> (i). A foreign going vessel of Indian flag having a General Trading Licence can convert to coastal run on the basis of a Customs Conversion Order. Such vessel that converts into coastal run based on the Customs Conversion Order at her first port of call in Indian Port, no further custom conversion is required, so long as it moves on the Indian Coast. (ii). A Foreign going vessel of foreign flag can convert to coastal run on the basis of a Licence for Specified Period or Voyage issued by the Director General of Shipping and a custom conversion order.
		(b) <u>Criteria for levy of Vessel Related Charges (VRC) at Concessional Coastal rate and foreign rate</u> (i) In cases of such conversion, coastal rates shall be chargeable by the load port from the time the vessel starts loading coastal goods. (ii) In cases of such conversion coastal rates shall be chargeable till the vessel completes discharging operations at the last call of Indian Port; immediately thereafter, foreign going rates shall be chargeable by the discharge ports.

		<p>(iii) For dedicated Indian coastal vessels having a Coastal licence from the Director General of Shipping, no other document will be required to be entitled to coastal rates.</p> <p>(iv) Coastal goods transported between an Indian port on east coast and another Indian port on west coast or vice versa, by a vessel through the territorial waters of Sri Lanka, whether or not calling any port in Sri Lanka in between and without change of vessel in terms Notification No.38/2018-Customs (N.T.) dated 11 May 2018 of Central Board of Indirect Taxes and Customs shall be eligible for concession in vessel related charges.</p> <p>(v) Coastal goods transported between an Indian port on east coast and a river port in India or vice versa, by a vessel through a route passing through the Bangladeshi waters and without change of vessel in terms Notification No.38/2018-Customs (N.T.) dated 11 May 2018 of Central Board of Indirect Taxes and Customs shall be eligible for concession in vessel related charges.</p> <p>(vi) (a) As per Clause 6 of the Standard Operating Procedure (SOP) for operation of Indo-Bangladesh Coastal Shipping Agreement (given below), the vessels entering into India from Bangladesh under the Coastal Shipping Agreement between India and Bangladesh are not to be treated as foreign going (FG) vessels.</p> <p>(b) Port and other charges:</p> <p>(i) Port dues to be levied by the Major Port Trust on the entry of vessels of the Republic of Bangladesh into India under the Coastal Shipping Agreement between the two countries and engaged in inter country trade, will be treated as domestic vessel engaged in coastal shipping and not as Foreign Going (FG) vessels.</p> <p>(ii) The Major Port Trust shall also on the vessels of the Republic of Bangladesh levy charges for conservancy, pilotage and other specific services at par with those charged from the coastal vessels. The charges will be determined with reference to cargo carrying capacity of the vessels, as applicable to coastal vessel engaged in coastal shipping.</p> <p>Note:</p> <p>1) The provisions prescribed at (iv) and (v) above shall be subject to adherence to the provisions prescribed in the Order No.TAMP/53/2015-VOCPT dated 26 November 2015 and amendment Order No.TAMP/53/2015-VOCPT dated 10 June 2016.</p> <p>2) Provisions prescribed at (vi) above will be governed by Standard Operating Procedure (SOP) for operation of Indo-Bangladesh Coastal Shipping Agreement.</p>
	(xvi)	For all types of cargo, cargo related charges shall be levied on the gross weight of the consignment.
	(xvii)	For the purpose of charging, Shipper's Own Containers will be at par with the rates that of Marine Freight Containers.
	(xviii)	Users will not be required to pay charges for delays beyond a reasonable level attributable to KOPT.
	(xix)	<p>(a) Wherever a specific tariff for a service/cargo is not available in the notified Scale of rates, KoPT would approach TAMP for notification of tariff for the said new cargo/equipment/service adopting the tariff and performance standards, if any, fixed for comparable cargo /equipment/service in any other Major Port Trusts.</p> <p>If there is no rate available in any other Major Port Trusts or if the rate available is not representative enough of the proposed new cargo/service/facility, then the port would file the proposal for notification of tariff for the said new</p>

			cargo/equipment/service with reference to optimal capacity assessed following the principles of 2008 guidelines or based on rated capacity or technical specification /facility /equipment. If determination of tariff based on the above prescribed options is not possible, then KOPT after giving sufficient reasons would proposed rates based on cost plus 16% return formula.
		(b)	Simultaneously with the submission of the proposal, the proposed rate can be levied on an ad hoc basis till the rate is finally notified.
		(c)	The ad hoc rate to be operated and the performance standards to be applied in the interim period must be based on the approach in clause (a) above and it must be in consultation with the concerned users.
		(d)	The final rate fixed by the TAMP for new cargo/service for which rate is not prescribed in the Scale of Rates of KOPT will ordinarily be effective only prospectively. The interim rate adopted in an ad hoc manner will be recognised as such unless it is found to be excessive requiring some moderation retrospectively.
	(xx)	(a)	The rates prescribed in this Scale of Rates are ceiling levels; likewise, rebates and discounts prescribed are floor levels. KoPT may, if it so desires, charge lower rates and/ or allow higher rebates and discounts.
		(b)	KoPT may also, if it so desires, rationalize the prescribed conditionality governing the application of rates prescribed in the Scale of Rates if such rationalization gives relief to the user in rate per unit and the unit rates prescribed in the Scale of Rates do not exceed the ceiling levels.
		(c)	Provided that KoPT should notify the public such lower rates and / or rationalization of the conditionality governing the application of such rates and continue to notify the public any further changes in such lower rates and / or in the conditionality governing the application of such rates provided the new rates fixed shall not exceed the rates notified by the TAMP.
	(xxi)		Taxes, Duties, etc. as may be levied by the State or Central Govt. or any legal/Statutory Authority from time to time, shall have to be paid extra.
	(xxii)		In order to decongest ports and encourage exporters / importers to utilize the port services beyond regular hours, lower charges will be levied for cargo and vessel related services as well as special discount will be offered in port charges for services rendered after regular hours.
	(xxiii)		ANNUAL ESCALATION (Except for SOR prescribed under Part – X)
		(a)	The SOR (except Part – X) is subject to automatic annual indexation at 100% of the WPI to be annually announced by the Authority. The next annual indexation will be from 1 May 2020 subject to the either of KDS or HDC or both achieving the Performance Standards prescribed in below. If Performance Standards prescribed in the SOR are not achieved, there will be no indexation in SOR for that particular year. In case any dock system is able to achieve the performance standard set for it and the other does not, then the dock system which is able to achieve the performance standard set for it would be eligible for the automatic annual indexation. In case any Dock System achieves the benchmark for any one for more than one activity but is not able to achieve the performance standard set for other activities, the concerned dock system would be eligible for the automatic annual indexation of the activity against which it is able to achieve the performance benchmark.
		(b)	The port should declare the Performance Standards achieved by it annually for the period 1 January to 31 December vis-à-vis the Performance Standards notified by the Authority at the level committed by the port within one month of end of the calendar year to the concerned users as well as to the Authority. If the Performance Standards as notified by the Authority are achieved by the port, then the port will automatically index the SOR at 100% of WPI announced by the Authority and apply the indexed SOR w.e.f. 1 May of the relevant year. The SOR indexed by the KOPT to be intimated by the port to the concerned users and to the Authority.

Penalty / Incentive Norms:

For the purpose of calculation of the productivity, the working time of the vessel will be calculated from haul in time till completion of cargo work. For failure or success in achieving the stipulated discharge rate, penalty/ incentive will be applicable as follows:

(a) If the working time of the vessel (considering hauled in time till completion of cargo work) exceeds the stipulated time based on the above productivity norms by 2 hours or less, then no penalty will be levied

(b) If the working time of the vessel (considering hauled in time till completion of cargo work) exceeds the stipulated time based on the above productivity norms beyond 2 hours, then penalty will be levied @ 2 times of the normal berth hire charge for every additional hours or part thereof taken to complete the cargo operations of the vessel.

(c) If the vessel's pumping rate exceeds the Benchmark Pumping rate, then incentive will be provided as per the following:

If the working time of the vessel (considering hauled in time till completion of cargo work) is lower than the stipulated time by more than 2 hours, then incentive will be paid @ 5% of the applicable berth hire charges for every additional hour saved. However, there will be no incentive for saving of time up to 2 hours.

Note to provisions regarding Penalty/ Incentive Norms:

(i) For calculation of the stipulated working period in hours the cargo tonnage will be divided by the Pumping Rate Norms and the same will be compared with the actual working period of the ship to be ascertained from the operational records.

(ii) For non-achievement of the performance as stated at (i) above, the penalty will be imposed on the ship's owner / agent. Similarly, for achieving higher performance, the incentive will be paid at the proposed rate to the ship owner/ agent.

(iii) If Propane & Butane are discharged simultaneously even for a smaller period, the benchmark pumping rate prescribed for **Simultaneous discharge of Butane & Propane** would be applicable for calculating penalty / incentives. However, for discharging Propane & Butane or some other cargoes one by one, hauled in time to finished work time of the first cargo and finished work time of 1st cargo to finished work of 2nd cargo is to be considered for calculating penalty/incentives. More so, in case of simultaneous discharge of cargo other than Propane & Butane, duration from Hauled in Time to Finished Work Time (for the 1st cargo) and Finished Work Time of 1st / previous cargo to Finished Work Time (for 2nd cargo) is to be considered.

S.21.5.2 Due to non-achieving of benchmark Pumping Rate or any other reason attributable to the vessel, if the sailing of the Vessel is delayed and consequently a vessel called from Sand head /anchorage point for berthing in place of the vessel so delayed is required to be sent back to Sandhead /anchorage; the pilotage/shifting charge for the said movement of the incoming vessels shall be recovered from the vessel which overstayed at Berth.

(c).	The same methodology shall also be adopted to calculate the incremental ceiling rate beyond 26000 tonnes with the change that in such case the base rate is increased by 0.5% for first two thousand tonnes, 1% for 2 nd two thousand tonnes and 1.5% for the third two thousand tonnes. The same methodology shall be adopted to calculate the rate beyond 32000 tonnes.
