**CIRCULAR**

All license holders are once again advised to take immediate measures towards compulsorily covering of all dry bulk cargo stacks lying inside the dock with tarpaulin with tie down safety arrangements in order to mitigate the dust generation.

It may also be noted that on completion of the cargo delivery the said tarpaulins as well as any other unused/damage tarpaulins must be taken out of the dock to keep the environment within the port clean.

The competent authority of HDC had directed for compliance towards compulsorily cover all dry bulk cargo stacks within 16.12.2020. However, despite passage of substantial time, it is observed that the directions are not being complied with.

All concerned are advised to strictly comply with the above guidelines with immediate effect. In the event of non-compliance port authorities will be constrained to take stern action including stoppage of delivery of cargo from the plot of concerned importers/licensees.

This is for favour of information and strict compliance please.

 24.03.2021.
