TRADE CIRCULAR

Sub: Mandatory Verification of Vehicle particulars of empty vehicles with their original RC
Book entering the dock for delivery of import dry bulk cargo.

In recent times, several incidents of usage of forged vehicle numbers for entering into the Dock have been caught by CISF as well as other agencies. Such incidences of fraudulent activities have been considered very seriously by SMP, Kolkata.

It has been further decided that the concerned C&F Agent must verify the vehicle registration number, engine number and / or chassis number of individual vehicle with their RC Book and allow loading only after being satisfied about the genuineness of the vehicle. If any vehicle is found with forged vehicle number or with any other irregularities, the Clearing & Forwarding Agents must immediately inform the matter to officials of T.O.(Sh & CH) Division.

Any vehicle caught with forged numbers will be debarred from entering into the Dock. In addition, the agencies involved with such fraudulent activities will also be debarred from all Port activities.

All concerned are requested to be guided by the above Trade Circular.
