1.			It is seen from tender drawings that the HFL at Kalyani is higher than proposed Top Cap of the bank protective work. Tide data of number of days of precedence of HFL including date range of previous 5 years may please be provided or alternately access and source of such data may be provided Or alternately it may be confirmed that whether in absence of more accurate data, Annual Flood Report Data by I&WW Dte. for R. Bhagirathi-Hooghly at Swarupganj may be referred.	Work is to be carried out as per the drawings/cross-sections attached with the tender document.
2.	Cl.28 & 29 P-36	Before excavating sand from the river, the contractor must take permission from SMPK clearly indicating alongwith lat-long co-ordinates from which point/points in the river he wishes to excavate the sand. He will start excavating only on receiving the necessary clearance from SMPK. The sample of the river sand must be submitted to the Engineer's Representative at site for approval of SMPK at regular intervals. If due to any reason the sand at any one location is not found to be suitable , the contractor will have to excavate sand from some other suitable location after taking permission from SMPK as stated above.	The work requires extraction of local river sand. The State Govt Office Order and MoL&J, Union of India Gazette Notification authorizing SMPK for such extraction without further obtaining permission from District Administration may kindly be added with the Tender Documents.	As per tender document clause nos. 28 & 29 of SPECIAL CONDITIONS OF CONTRACT (Works & Methodology).
